SURGICAL PROCEDURE KITS

The Best Way to Save Time and Cost

The Omnia Surgical Kit Line offers convenient, pre-assembled procedure kits that provide your surgical team with the sterile disposable devices needed for most dental surgical procedures.

Omnia Surgical Kits are designed as the ideal solution for Oral and Maxillofacial Surgeons, Periodontists, Implantologists and General Dental Surgeons.

Driven by a focus on safety and protection, Omnia has supplied innovative, functional and reliable products to dental surgeons and their patients for more than 20 years.

Omnia now supplies the needs of dental surgeons in more than 40 countries around the world.
